

Jose Carlo Habacon Arintoc

Calamba, Philippines 4027 • +63 947 441 3295 • arintoc.jcarlo@gmail.com

Education

City College of Calamba
Bachelor of Science in Information Technology

Calamba, PH
June 2025

Experience

Freelance

July 2025 - Present

- Handled the full development cycle from UI design to final deployment building a church management system, an ecommerce admin dashboard, and custom websites for local businesses.
- Developed the frontend and backend using React, Next.js, FastAPI, PostgreSQL, and Supabase. Built complex technical features, including a dynamic role-based access control (RBAC) system that lets admins create custom roles and assign specific permissions.
- Built CI/CD pipelines using GitHub Actions to automate deployments, and scheduled regular database backups to secure data and reduce manual maintenance.

Sourcify AI (Part-time)

Newark, USA

Frontend Developer (Remote)

November 2025 - February 2026

- Collaborated on the development of the Sourcify AI platform by translating Figma design specifications into production-ready code
- Developed and delivered web applications for Endpointer AI to facilitate AI model training for web scraping and data extraction

Falcon Media Australia (Contractual)

Victoria, AU

Web Developer (Remote)

July 2025 - September 2025

- Contributed to the development of the Lighthouse Productivity Suite, leveraging React for frontend development and Node.js for backend integration
- Designed user interfaces for the Lighthouse Productivity Suite using Figma

Xurpas Enterprise

Makati, PH

Frontend Developer Intern (Remote)

January 2025 - May 2025

- Worked with the Frappe Framework, a full-stack web development framework built with Python and JavaScript, to develop and maintain web applications
- Contributed to the design and development of ERP-based applications, ensuring reliability and scalability
- Collaborated with co-interns in agile sprints, implementing user-facing features using React and TypeScript

Skills

HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, TypeScript, React.js, Next.js, Python, FastAPI, Node.js, Express.js, PostgreSQL, MongoDB, Frappe Framework, SQLAlchemy, Git, Postman, Docker

Certifications

- Complete FastAPI masterclass (Udemy)
- React the complete guide 2025 (UDEMY)
- Introduction to IoT and Digital Transformation (Cisco Networking Academy)
- Employability Skills - Job Ready (Wadhwani Foundation)
